DRUG AND GANG ENFORCEMENT ACCOUNT

In FY 2004 (July 1, 2003 to June 30, 2004), the Arizona Criminal Justice Commission distributed a total of \$14,305,622 in award funds from the Drug and Gang Enforcement Account to eighty-five (85) projects in the State. The Account includes \$2,408,078 of local cash match funds deposited by grant recipients.

<u>SOURCE OF MONIES</u>	<u>2004</u>
Federal Formula Grant Funds	\$7,224,235
Drug Fines	4,673,309
State Appropriated Funds	0
Local Match Funds	2,408,078

The Commission authorizes Account funding to projects in the State in six program areas in accordance with the statewide enhanced drug enforcement strategy and the Account guidelines. The six areas are: drug apprehension and prosecution; criminal history records improvement; drug offender adjudication; drug offender detention; drug analysis (forensic services); and drug abuse education/prevention.

In FY 2004, sixteen (16) drug apprehension projects consisting of sixteen (16) multi-jurisdictional, multi-agency drug task forces, established in all fifteen (15) counties in the State of Arizona, received support funding from the Account. There were fifteen (15) drug prosecution projects in the State receiving support funding from the Account. Included in these fifteen (15) projects were full-time dedicated drug prosecutors in thirteen (13) of the fifteen (15) counties in Arizona.

During FY 2004, fifteen (15) criminal history records improvement projects received Account funds.

Drug offender detention projects in two (2) counties received Account funds. Enhanced drug forensic analysis projects included the Department of Public Safety, the Phoenix Police Department, and the Tucson Police Department received Account funds. One (1) grant awarded to the Administrative Office of the Courts passed Account funds through to thirty-four (34) court related enhancement projects in all fifteen (15) counties in Arizona. There were no requests for drug abuse education/prevention funding in FY 2004.

Drug and Gang Enforcement Account

In FY 2004 direct personnel costs made up 90.52 percent of the expenditures from the Account. Other costs associated with the projects such as equipment, operations, space, etc., were supplied by the State, county, and local authorities participating in the projects. Account expenditures provided salaries, overtime, and employee-related expenses for 242 criminal justice professionals in the State of Arizona.

Prosecutors	45
Probation Officers	11

Forensic Criminalists/Print Examiners	11

Judges/Commissioners	5
TOTAL	242

In FY 2004 apprehension project activities resulted in the arrest of 3,322 drug offense violators, a slight decrease over FY 2003 (3,355); the removal of 221,205 pounds of marijuana; over 3,964 pounds of cocaine a 93.48 percent increase over FY 2003, and 454.7 pounds of methamphetamine a 30.16 percent increase (343.3) over the same period. Drug traffickers' non-drug assets with a gross estimated value of \$18,263,313 were seized during this 12-month period.

Statistical results have been compiled from the fifteen (15) drug prosecution projects funded by the Account for FY 2004. During this period, 19,637 drug violators were convicted in the State, a 37.76 percent increase over FY 2003 (14,254), 61.89 percent (12,153) of which were felony convictions. Prison sentences were handed down to 3,327 of these convicted drug violators; 4,585 received jail sentences; and 10,590 were placed on probation.

The criminal justice records improvement projects receiving support funds from the Account have enabled State, county and local law enforcement agencies to improve criminal justice records automation systems by the acquisition of hardware, software and consultant expertise.

Expenditures from the Account began in March 1988, and a sustained continuous program has been maintained since that time. In the 195 month period (16.25 years) from April 1, 1988 through June 30, 2004, \$66,822,580 was expended on apprehension projects; \$65,105,593 for prosecution projects; \$36,722,854 for adjudication projects; \$15,082,188 on drug forensic analysis and drug offender detention projects; \$1,432,222 drug prevention and

education; and \$7,553,674 for criminal history records improvement projects, which had its first expenditure in FY 1995.

The statewide enhanced drug enforcement program has been highly productive. During the 16.25 years, apprehension projects' activities resulted in the arrest of 51,735 drug offense violators. Program activities were responsible for the removal of over 65,966 pounds of cocaine; over 2,149,684 pounds of marijuana; over 382 pounds of heroin; and over 2,993 pounds of amphetamine/methamphetamine. Drug traffickers' non-drug assets with a gross estimated value of \$176,987,281 were seized.

The results achieved in the 195 months (16.25 years) of the enhanced drug enforcement program show that for every \$1,292 expended by the apprehension projects, one (1) drug violator arrest was made, drug traffickers were deprived of the profit from the drugs seized and also deprived of an estimated value of \$3,421 in non-drug assets seized.

NOTICE

Actual forfeiture of seized trafficker assets is a legal process and the gross estimated value of such seizures is very seldom received by law enforcement and prosecuting agencies. After forfeiture is achieved, lien holders (financial institutions and other legitimate claimants) are paid from the actual forfeiture proceeds. Storage, property maintenance and management costs, and processing and disposition fees are also paid from forfeiture proceeds. The gross estimated value of seizures is used only as an indicator of the negative impact seizures have on drug traffickers' resources.

The statewide distribution of Drug and Gang Enforcement Account funds for FY 2004 for each project is presented by geographical area and program on the following pages.

It consists of local officers working closely with a full-time drug case prosecutor to identify, arrest and prosecute drug traffickers, and to seize drugs and forfeitable assets.

The primary objective of the task force is drug eradication through investigation and prosecution and to continue to spearhead and assist in any major crime investigation in Apache County.

ACCENT is administered by the Apache County Sheriff's Office. Participants include the St. John,s Police Department, Springerville Police Department, Eagar Police Department, Arizona Department of Public Safety, and the Apache County Sheriff's Office.

This multi-agency task force has made 2,010 drug arrests since its inception in April 1988. The task force has seized over 104 pounds of cocaine, 7,639 pounds of marijuana, 6,991 cannabis plants under cultivation, over 55 pounds of methamphetamine and 28,249 dosage units of other dangerous drugs. The task force has seized drug law violators' assets with an estimated value of \$3,012,218. This enforcement program provides limited coverage for an area suspected of having high levels of transportation of illicit drugs coming from the United States-Mexico border, through Southern Arizona and New Mexico, and on to other states.

The Border Alliance Group (BAG) is a drug enforcement task force involving federal, state and local agencies. They are formally organized to identify, arrest and prosecute drug traffickers. The task force is organized to seize drugs and cash assets and pursue investigative leads to upper level trafficking organizations operating in the federally designated Southwest Border High Intensity Drug Trafficking Area that includes all of Cochise County.

The primary objective is to deter and disrupt the importation, distribution and production of unlawful narcotics and illegal substances; to effectively dismantle the various drug smuggling and street gang networks and reduce the occurrence of violent crimes in Cochise County.

BAG is administered by the Cochise County Sheriff's Office. Participants include the Tombstone Marshal's Office, Benson Police Department, Bisbee Police Department, Willcox Police Department, Douglas Police Department, and the Cochise County Sheriff's Office.

This task force, operating along the 83 miles of remote, sparsely populated United States border with the Republic of Mexico, has continued its high levels of productivity in drug seizures, including over 12,519 pounds of cocaine, 420,474 pounds of marijuana, 4,802 cannabis plants under cultivation, over 93 pounds of methamphetamine, and moderate amounts of other dangerous drugs, since its inception in 1988. The task force has also seized drug law violators' assets valued at an estimated \$15,379,078 and made 2,821 arrests, 67 percent were for sales/trafficking offenses. This level of task force activity continues to support the value derived from inter-agency cooperation in the anti-drug campaign, with substantial impact on reducing the availability of illicit drugs.

CNA is administered by the Tucson Police Department. Participants include the Pima County Sheriff's Department, South Tucson Police Department, Marana Police Department, Oro Valley Police Department, Tucson Airport Authority, University of Arizona Police Department, Arizona Department of Public Safety, Pima County Attorney's Office, and the Tucson Police Department.

This program is administered by the Arizona Attorney General's Office. The Arizona Forfeiture Support Services Project provides legal resources to bring civil remedies to bear on drug traffickers and financiers. Services are available to county attorneys and law enforcement agencies statewide.

The primary goals are to assist the United States Attorney and county attorneys in drug violator asset seizure and forfeiture cases, provide investigative training to attorneys and law enforcement officers, provide professional management services, and provide investigative and litigation services on a 24-hour basis.

The Forfeiture Support Services Project has been a significant asset to county attorneys and law enforcement agencies throughout Arizona. They provide a regularly updated manual on drug violator asset recovery and forfeiture to other agencies, and oversee the management and disposition of seized and forfeited property for participating departments. Training is excellent and highly acclaimed by officers and attorneys involved. This activity has reported the successful forfeiture of drug violator assets totaling \$26,619,267 since July 1991. A substantial portion of this amount is used by the seizing agencies for law enforcement enhancement and assistance.

Arizona Supreme Court Anti-Drug Adjudication

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds: \$2,734,228

This project is administered by the Administrative Office of the Courts. The anti-drug abuse adjudication program provides the court system with grant funds to enhance agencies throughout the State, including the Superior Courts in all of Arizona's 15 counties and the adult probation offices in Apache, Cochise, Gila, Graham, Greenlee, La Paz, Maricopa, Mohave, Pima, Pinal, Santa Cruz, Yavapai and Yuma Counties and the Public Defender Offices in Gila, Maricopa and Yavapai counties. The Administrative Office of the Courts also administers a felony drug testing program with the grant funds.

The primary objectives of this activity are to meet the current demands placed upon the court system and the offices of public defenders by the enhanced enforcement and prosecution efforts funded by the Account.

This activity provides enhanced adjudication services for Arizona's criminal justice system. The Administrative Office of the Courts (AOC) maintains administrative authority more than 25 court-related activities receiving drug grants to accommodate increased caseloads resulting from the enhanced drug enforcement effort in Arizona. Each project has proved to be meritorious and responsible in the administration of funds received. The projects deliver a wide range of services to expedite the judicial process. These services could not have been provided without impacting other court services were it not for the grant funding assistance. These projects are a vital element in Arizona's anti-drug, gang and violent crime effort.

Coconino County Drug Detention Officer Program

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds: \$37,064

This program is administered by the Coconino County Sheriff's Office. The program provides one full-time court officer to track drug arrests, transport inmates to and from the detention facility and courts and provide support services to other court officers.

The primary objective is to respond to the increased need for detention services resulting from increased drug enforcement and to track the progress of drug cases through the court system in Coconino County.

This project is an enhancement of detention and court services activities needed to support the increased inmate population resulting from the vigorous enforcement activities of the Northern Arizona Metro Narcotics Task Force. Grant funds are used to track drug cases through the system to expedite efficient processing and adjudication, consistent with program objectives.

Maricopa County Multi-Agency Drug Enforcement Detention Strategy

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds: \$327,299

The program is administered by the Maricopa County Sheriff's Office. The activity enhances the Maricopa County jail system by providing eight full-time detention officers that allow the jail to respond to increases in drug violator arrests and average daily drug violator inmate population demands. This increase resulted from enhanced, county-wide drug enforcement activities in Maricopa County, which is one of the six counties that make up Arizona's portion of the federally designated Southwest Border High Intensity Drug Trafficking Area.

The primary objectives are to provide the capability to respond to the increased need for detention services generated by the multi-jurisdictional drug enforcement strategy in Maricopa County and assure adequate supervision and control of inmates, detention officer training and required support staff.

This program provides vital detention services in the Maricopa County jail. Over the last decade, the Maricopa County Sheriff's Office has seen the average daily population increase by 76 percent from 4,677 in 1993 to 8,231 in 2003. For the year 2003 the average daily population (ADP) in the jail system was 8,231 with the total number of 119,275 processed for the year. The benefit of this enhanced funding allows the Maricopa County Jail to keep one additional housing facility open that would otherwise not be possible. The number of prisoners in the jail on drug or drug-related charges makes up a substantial portion of the total inmate population. Grant funds maintain the number of detention officers at a level that facilitates supervision and control of drug offenders.

The eDispo Rollout Project consisted of providing a software platform, known as AZTEC, and the one-on-one training required to develop proficiency in the system to fifty (50) courts across Arizona, out of 145 courts. During 2001 and 2002, the Arizona Courts developed this software platform to allow courts to report case dispositions electronically directly to the Department of Public Safety (DPS).

The project included creating the messaging infrastructure to communicate with the law enforcement network and modifying the court's case management system to generate electronics transactions for disposition data entry. The project also included training on DPS records, the disposition workflow, and implementing the electronic disposition reporting in the courts. There are currently issues with the error rate and ongoing discussions with DPS, which require resolution before DPS allows electronic disposition reporting. This project has been extended to June 30, 2005.

Arizona Department of Liquor Licensing and Control

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$4,774
Includes Local Cash Matching Funds:	\$1,194

The Department of Liquor Licensing and Control maintains access to the Arizona Criminal Justice Information System (ACJIS) and a link to the National Crime Information Center (NCIC). The department link was outdated and the equipment was not compatible with the FBI encryption requirements that will be going into effect in 2005. The department previous analog network did not have the capability to be encrypted.

The project involved the acquisition of a new computer workstation, printer, router, and funding of the DPS frame relay circuit for 12 months. The new link is installed and operating.

Arizona Department of Public Safety

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$17,887
Includes Local Cash Matching Funds:	\$4,472

This project, administered by the Arizona Department of Public safety (DPS), provided replacement of computer terminals, printers, and software at the Arizona Central Repository/Department records area. Replaced equipment was obsolete and difficult to repair.

Eight terminals were replaced with personal computers and associated hardware/software and are now in operation.

Arizona State University- Department of Public Safety

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$49,850
Includes Local Cash Matching Funds:	\$12,463

The Arizona State University Department of Public Safety (ASU-DPS) was not able to access the AFIS system and was still using inked fingerprint cards to book arrestees. This project, administered by the ASU Department of Public Safety, was aimed at installing a Sagem Morpho Live Scan Fingerprinting System in order to input and access fingerprint data electronically.

The goal of this project is to further enhance the ASU-DPS automation system by sharing information with the statewide database maintained by the Department of Public Safety. The ASU-DPS Live Scan fingerprint system is now fully operational.

Buckeye Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$18,419
Includes Local Cash Matching Funds:	\$4,605

The Buckeye Police Department had a need to expand their Mobile Data Computer inventory to accommodate the growth of the department and technology (CDPD) that was not able to meet their needs. The increase in data transmission space required the inclusion of graphics files and photographs. This necessitated a different mode and new equipment.

The program's goals were to update the current technology to a CDMA system, add additional MDCs to the patrol fleet, and reduce the time officers spent out of service writing reports. The installation of the CDMA network significantly improved the field officers' availability, with increased time spent in the field and less in the office.

Coconino County Attorney's Office

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$17,764
Includes Local Cash Matching Funds:	\$4,441

This project is administered by the Coconino County Attorney's Office and it involved upgrading server equipment and associated hardware and software to effectively run the upgraded DAMION case management software.

The task of managing the increasing criminal case load of the County Attorney's Office led the office to re-engineer their records management systems and to join the Criminal Justice Integration Project. Along this effort, the office acquired the DAMION case management system and this required a new server.

The previous server was unable to manage the functions required to recover data, and to administer, report, and track DAMION data entry. The primary goal of this project was to acquire, install, and configure the server to allow a transfer of data by January 2004, the project was completed successfully.

Cottonwood Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$50,622
Includes Local Cash Matching Funds:	\$12,656

This project is administered by the Cottonwood Police Department. Cottonwood is serving as host to a Spillman Consortium of agencies, which includes the Clarkdale Police Department, Camp Verde Marshal's Office, Yavapai County Sheriff's Office, and the Yavapai Apache Tribal Police.

The host agency's IBM server was outdated and not able to handle the added workload from additional workstations by the Consortium agencies. The addition of software modules such as CAD mapping, enhanced records management, and evidence tracking was not feasible until a new server was acquired.

The goal of the project was to replace the existing server with an updated IBM server and associated software. The new system has been installed and is currently in operation.

Eloy Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$19,950
Includes Local Cash Matching Funds:	\$4,988

This project is administered by the Eloy Police Department. Its goal is to reduce the time required for field officers to submit their reports by utilizing a direct download process from their laptop computers and eliminating the manual data entry by records personnel. The acquisition of Field Reporting Software will expedite the departmental reporting process.

The goals of this project also included the conversion of the department's booking and evidentiary photographic process from film to digital photography. The software and hardware DIGIMUG system will enable the integration of booking and evidentiary photographs into the Records Management System.

The Field Reporting system was acquired and it is currently being utilized. The digital photography system was acquired but interfacing issues with current software have not been resolved.

Florence Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$18,449
Includes Local Cash Matching Funds:	\$4,612

This project is administered by the Florence Police Department, and is part of a three-phase plan to acquire and install a digital photo and Live Scan fingerprinting system. The goal was to achieve live linking to the state AFIS system.

The Live Scan is operating and currently transmitting fingerprints to AFIS.

Maricopa County Sheriff's Office

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$42,989

This project is administered by the Maricopa County Sheriff's Office (MCSO). The office recently acquired a full Records Management System (RMS), which included a Wants and Warrants module. However, the system needed an additional interface in order to be compatible with their Jail Management System and avoid double entry of data.

The primary goal of the project was to expand the MCSO's RMS functionality for online wants and warrants processing and improve warrant dispositions to the state. The communications interface between MCSO and the Arizona Department of Public Safety has been tested but final approval has not been received.

Pinal County Sheriff's Office

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$24,953
Includes Local Cash Matching Funds:	\$6,238

This project is administered by the Pinal County Sheriff's Office and it consisted of acquisition and installation of hardware and software for a document imaging system. The department's paperwork flow process was hindered by the need to process paper copies for both internal use and outside requests.

The primary goal of the project was to operate a system that would scan all copies of reports and integrate with the current Spillman system. It would include installing scanning stations at the three regional substations, the records division, and the inmate intake unit.

The document scanner system is in place and operating effectively.

Surprise Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$98,362
Includes Local Cash Matching Funds:	\$24,584

This project is administered by the Surprise Police Department. The police department acquired a Records Management System (RMS) to replace a 12-year-old system. The department also acquired a Computer Aided Dispatch (CAD) package to replace a manual dispatch process.

The goal of this project was to complete the acquisition and installation of additional modules for the RMS package to include mapping, evidence, pawn, and NIBRS. The complete RMS and CAD systems are online and operating properly.

Tolleson Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$90,335
Includes Local Cash Matching Funds:	\$22,584

This project is administered by the Tolleson Police Department. Because of funding issues the department was not able to establish computer-aided dispatching functions. In an inter-agency cooperation effort, the department and the Buckeye Police Department agreed to share the Buckeye Records Management and Computer Aided Dispatch (CAD) systems, to include the mobile application features of the Buckeye Police Department. In order to allow the two systems to interface, Tolleson acquired and implemented the ROVER Mobile Application.

The goal of enabling the sharing of records and dispatch systems between the two departments was completed, along with the mobile application.

Tucson Police Department

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$94,500
Includes Local Cash Matching Funds:	\$23,625

This project is administered by the Tucson Police Department and is addressed at reducing the delay in the entry of fingerprints and arrest information into the Arizona Automated Fingerprint System (AZAFIS) and the Arizona Computerized Criminal History. The delay was caused by having to share one of the two Live Scan units at the department's crime laboratory.

A secondary issue was the need to take mugshots of persons who were field released and not booked. In those cases their fingerprints and photographs were not generated. The project included a mugshot capture station.

The two goals of the project were completed and both systems are fully operational.

Yavapai County Sheriff's Office

Source and amount of monies received:

FY 2004 Drug and Gang Enforcement Account Funds:	\$34,060
Includes Local Cash Matching Funds:	\$8,437

This grant is administered by the Yavapai County Sheriff's Office. The grant funds allowed the Sheriff's Office to complete retrieval of Arizona Criminal Information Center (ACIC) and National Crime Information Center (NCIC) information through the use of TCP/IP technology. The project was necessary in order to seamlessly integrate the departments Records Management System into the criminal records disposition process.

The project involved the acquisition and installation of sixteen (16) personal computers, fourteen (14) printers and associated hardware and software. All equipment has been installed and tested, and the project is awaiting final test and acceptance of network by the Department of Public Safety.
